

REMARKS

In the Amendment filed on May 9, 2007, Paragraphs [0072], [0073], [0077], [0085], and [0088] were amended to correct typographical errors. Applicants further noted that an English translation of the priority document of record would be filed to show that the amendments to the aforementioned paragraphs introduced no new matter into the application. A certified copy of this English translation has been submitted with this paper.

In addition, a Replacement Sheet for Figure 2 has been filed to conform to the disclosure in the specification that an “on” signal causes light to be transmitted in a way that appears in an image and an “off” signal causes light to be diffracted in a direction which causes it not to appear in a display image.

In view of foregoing remarks and attachments, and the amendments and remarks set forth in the Amendment filed on May 9, 2007, it is respectfully submitted that the application is in condition for allowance. Favorable consideration and timely allowance of the application is respectfully requested.
